DETAILED ACTION.

Claims 1-26 are pending

Applicant's election of claims Group I, 1-11 in the reply filed on 04-14-2005 is acknowledged. Because applicant did not distinctly and specifically point out the supposed errors in the restriction requirement, the election has been treated as an election without traverse (MPEP § 818.03(a)).

Claims 12-26 are withdrawn from further consideration pursuant to 37 CFR 1.142(b) as being drawn to a nonelected invention there being no allowable generic or linking claim. Election was made **without** traverse in the reply filed on 04-14-2005

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United State

Claims 1-7 are unpatentable under 35 U.S.C. 102(b) over Brytus (US patent 4,751,278)

Brytus discloses a cyclic aliphatic polyamine (an isophoronediamine, =1,3,3-trimethyl-1-aminomethyl-5-aminocyclohexane). Since Applicants have claimed a product by way of a –product by process claim, the Examiner did not give any patentable weight to the process step.

(See column 2, lines 34-36).

Allowable Subject Matter.

The following is an examiner's statement of reasons for allowance: Claims 8-11 are allowed over the prior art of record because the prior art of record does not teach or suggests amino compounds represented by the structural formulas given in claims 8-11 of the present application.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
